EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elizabeth Parsons on April 8, 2010.

The application has been amended as follows:

Claim 81, line 9 at the end of the claim replace ";" with ".".

The following is an examiner's statement of reasons for allowance:

Claims 1-91 are allowable over the prior art of record because the prior art does not teach controlling the conditions of the method as claimed in order to produce a silver selenide film which comprises both alpha silver selenide and beta silver selenide.

Concerning the obviousness type double patenting rejection since Case et al. (U.S. Pat. 4,818,357) and Ovshinsky et al. (U.S. Pat. 5,534,711) are not applicable to the applied claims the obviousness type double patenting rejection has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
